

SHAIKH BAKR BIN MOHAMED BIN LADIN

Chairman Saudi Bin Ladin Group

Business & Finance Club - Riyadh

Mohammed bin Ladin Est. was established in 1931 as a Saudi company for general contracting. Its history and development was coping with the development and history of the Kingdom since it was founded by Late King Abdulaziz Al Saud, with its change into a flourishing developed country with a remarkable international position.

With the passage of time, Late Salim Mohammed bin Ladin diversified and expanded the company's activities from building to an integrated group including various activities. Then, Saudi Bin Ladin Group was established to meet the new challenges on the international level. The group includes various departments in one establishment. Among the departments that played a leading role in Saudi Bin Ladin Group was the General Buildings and Airports, which is a vital department in the group whose management is preparing itself for a leading role during the following years.

Saudi Bin Ladin Group is one of the key organizations that played a leading role in the architectural development, particularly in general buildings and airports, the most active dept. in the group. It has carried out various projects that represent a challenge in various aspects including large scale and medium scale projects that meet the client's needs. Saudi Bin Ladin Group has a vast experience in construction industry, and managed so far to carry out various projects represented in the contemporary integrated airports, roads, hospitals, campuses, housing complexes of huge size, that were executed in a turn key basis, including civil works, electrical, mechanical works, finishing, furnishing, equipment, including the electrical and mechanical integrated works of the Holy Mosque in Madinah, Al Salam Aircraft hangars, extension of the Armed Forces Hospital in Riyadh, construction of King Abdulaziz Specialized Hospital in Taif, Wadi Al Dawaser Airport, Dawadmi

Airport, Port Sudan Airport, and two contracts for Kuala Lumpur, Malaysia Airport, an aircraft lane at Cairo Airport, construction of Faisaleya tower in Riyadh, Taibah complex, King Abdullah endowment in Madinah, Al Mousa Tower, fourth intersection at Shaikh Zayed road in Dubai, American University in Sharjah. This is part of a large number of projects executed by the group. While we are proud that our achievements were carried out during this great era since the founder of the Kingdom King Abdulaziz Al Saud, passing with the eras of his late sons until this prosperous age, the development and progress age, the age of Custodian of the Two Holy Mosques King Abdullah bin Abdulaziz Al Saud, in addition to the great position occupied by the capital Riyadh with the unprecedented achievements under the leadership of HRH governor of Riyadh Salman bin Abdulaziz Al Saud. Saudi Bin Ladin Group is proud that it contributed during the blessed fifty years in the developmental achievements of Riyadh.
